

The Neighbourhood Theatre @ The Atwater Library - fall 2013

We just wrapped up another great collaboration with Concordia University's Theatre and Development program. During the fall 2013 semester, students in a course called "[The Neighbourhood Theatre](#)" learned how be artists in residence at the Library, assisted with Digital Literacy Project programming and developed a forum theatre workshop aimed at improving job interview skills for clients of the [Little Burgundy Employment Centre](#) and Jeunes en action at the [Carrefour Jeunesse Emploi - NDG](#).

The students wrapped up the course by making a video about their experiences with the Library.
