

"The Book", a video by Carrefour Jeunesse-Emploi NDG's Jeunes en Action

Youth from the Jeunes en Action program took a six week digital media production workshop with new media artist Zohar Kfir, developing their technical skills of digital imaging and movie making. Participants from Carrefour Jeunesse-Emploi NDG's Jeunes en Action program worked together to film and edit this short video about an eccentric library patron looking for a special book. Editing was done in groups of three, using Windows Live Movie maker. Click the "read more" button at the bottom of this post to check out each version to see their different takes on the film.
